The Holly

This plan is an open-concept plan that allows the kitchen to open to the family and dining rooms. You will enjoy cooking in this kitchen with the oversized island and walk-in pantry. The additional square footage upstairs includes a bedroom and bathroom, providing extra space for growing families. Spend quiet evenings on the extended covered patio or retreat to the owner's suite oasis, complete with dual vanities, an extended master shower, and a luxurious walk-in closet. An oversized game room allows for plenty of space for kids to spread out to play or work. Additional highlights include a private study, cozy front porch, gas fireplace and stone exterior for enhanced curb appeal.
